Shabair

Full Stack Developer

Full-Stack Developer with hands-on experience in building and maintaining web applications using PHP (CodeIgniter), WordPress, and Next.js. Strong foundation in frontend and backend development, API integration, and database management. Demonstrates security-aware coding practices, including authentication, data protection, and basic vulnerability mitigation. Exposure to AI-assisted development, automation, and Ethereum-based blockchain projects. Actively developing DevOps skills with Docker, CI/CD pipelines, and Git. Adaptable team player with strong problem-solving skills and remote-work experience.

HINDI/PUNJABI

WORK EXPERIENCE

Internship – Full-Stack / Web Development   **2025-Dec - Continue**

MarketHand / *Brisbane*

- Developed and maintained web applications using Next.js, contributing to both frontend components and backend API integration.
- Worked within a monorepo architecture (Turborepo), managing shared packages, configurations, and scalable project structure.
- Assisted in designing and understanding microservices-based systems, including event-driven communication using Kafka.
- Applied web application security best practices, with practical understanding of OWASP Top 10 risks such as XSS, SQL Injection, authentication flaws, and insecure configurations.
- Supported application deployment workflows and development environments using Git, Docker, and basic CI/CD concepts.

IT Officer   **2019-Feb - 2021-Nov**

Brand Of Steel / Pakistan

- Provided technical support across the organisation, including hardware/software setup, network maintenance, and troubleshooting.
- Managed website updates and feature enhancements; assisted in basic SEO to improve online visibility.
- Monitored IT systems, tested new technologies, repaired equipment, and trained junior staff when needed.

IT Officer Inter   **2018-Aug-2019-Jan**

Brand Of Steel / Pakistan

- Assisted in the installation, configuration, and troubleshooting of computer systems, networks, and peripherals.
- Supported website updates and SEO efforts under supervision, contributing to improved online presence.
- Helped monitor IT systems, tested new tools, and provided basic technical support to staff.

CORE COMPETENCIES

- Requirement Gathering
- Process Improvement
- Problem Solving
- Data Interpretation
- Client Communication
- Agile/Scrum Awareness

SKILLS

CRITICAL THINKING & PROBLEM SOLVING

TECHNICAL & ADAPTIVE SKILLS

COMMUNICATION & COLLABORATION

PROFESSIONAL SKILLS

CAREER PLAN

Short-Term (0–1 Year): Begin a Full-Stack Developer role, building skills in Next.js, APIs, microservices, AI fundamentals, and OWASP-based web security.

Mid-Term (1–3 Years): Grow into a Mid-Level Full-Stack Developer, delivering scalable, secure applications with microservices, Kafka, and AI-enabled features.

Long-Term (3–5 Years): Advance to Senior Full-Stack / AI Engineer or Security-Focused Architect, leading intelligent, secure system design.

Freelancing   **2020-present**

Self

- Delivered full-stack web applications using PHP (CodeIgniter) and WordPress(Theme customisation and development), tailored to client business needs.
- Interfaced directly with clients to understand requirements, define scope, and develop feature-rich, user-friendly solutions.
- Built and deployed 5+ WordPress websites, 1 frontend responsive project, and contributed to 2 Ethereum-based blockchain applications.

EDUCATION

MASTERS DEGREE in Information Systems   **2023 - 2024**

Holmes College

Key Subjects: Business Analytics, System Analysis and Design, Computer Forensic and Analysis, IS Project Management, IS Strategy and Innovation

MASTERS DEGREE in Information Technology (*incomplete*)   **2022 - 2023**

Griffith University

Key Subjects: Computer Systems and Networks, fundamental of Cyber Security, Cyber Security Management, Fundamental Of Blockchain

ELICOS (English Language Proficiency)   **2022 - 2022**

Griffith University

Key Modules: Language in Use, Research Preparation and Practice, Critical Thinking, Issues in Society

BACHELORS DEGREE in Computer Science   **2013 - 2018**

University of Gujrat Sialkot Sub Campus

Key Subjects: Fundamental of Programming, OOP, Database, Artificial Intelligence, Web Development, Entrepreneurship, Probability and Statistics, Data Structure, Network Security, Web System and Technology

CORE TECHNICAL SKILLS

Web & Software Development

PHP · CodeIgniter · WordPress · HTML5 · CSS · JavaScript · Responsive Frontend Development · MYSQL · PostgreSQL · Ethereum · Smart Contracts (Basic) · Web3 (Introductory)

DevOps, Version Control & Collaboration

AWS (Basic) · Docker (Basic) · Git · GitHub · Linux (Basic) · Agile Collaboration

IT Systems & Technical Support

System Installation · Network Maintenance · Troubleshooting · Helpdesk Support · Hardware/Software Setup
